- A:** My dad is so bad at using the internet.
B: Yeah? What do you mean?
A: He wants to use Skype to call me but he can never get the hang of it. He doesn't even remember his password.
B: Oh geez. Why doesn't he write it down?
A: He did. Then he lost the paper. I really want to help him but it's so frustrating.
B: I know what you mean. My mom is the same way. She can use most websites okay but she's always having trouble with her phone.
A: What kind of phone does she have?
B: She used to have an Android phone. But now she has an iPhone and she can't get used to it.

I can't	get used to	my new phone.

- A:** I can't get the hang of my new computer.
B: Why? What's wrong?
A: Nothing is wrong. It's really easy to use. I just can't get used to where everything is.
B: I see. Well, give it time. You'll figure it out. You're on a Mac right?
A: Yeah. It's great. I really wasn't a big fan of Windows.
B: I feel the same way. I don't really like Apple's hardware but their OS is really great.
A: Same here. It shouldn't be so expensive.
B: Right. For me, it's the same with the phones. I love my Samsung phone but I want the iOS.
A: Really? That's where I think we differ.

B: Why? What's wrong?
A: It's easy to use. But all my files are in different places.
B: I see. You'll get used to it. You have a Mac?
