

lowercase letters

About the cards

This is a simple set of letter cards. Print them, cut them out, glue them to some some colored paper and laminate them. Then you can use your cards to spell out whatever words you like in any activity.

Who is this sheet for?

I mostly use these letters with small children around 4 to 8 years old during phonics practice, and older kids with spelling practice.

Using the worksheet

There are countless ways to use cards in classes. Games of memory, matching games, and games where kids run to the card or throw the card into a hat for a point. As long as you are active and fun and the kids are enjoying themselves you're going to have a great time and they are too. Make sure you and your students say the words again and again and speak, make sentences so everyone can hear and say the sentences in context.

Note: Kids have a way of destroying cards they get hold of, so after printing the cards you might want to laminate them and remember to round off the edges so no one gets a sharp card in the eye. If you do it well enough this opens up the usage of the cards for a few good games where you can flick or flip the cards to be more active.
